Our Greetings for 1939

(Our 24th of Growing Dahlias)

It's a pleasure to be able to greet so many valued old and new friends with this newest book of Zant's Blue Ribbon Dahlias. I appreciate your continued and increasing patronage. I appreciate the many new customers your recommendations of Zant's continually bring us. I appreciate the increasing number of letters that say "here's a check and a list of what I now have — send me what you think I should have." But I appreciate most of all the stacks of letters and pictures I get in the fall telling me of pleasure and success you have had in growing our full-of-vigor Michigan-grown roots and plants. We really appreciate those letters. (See our prize offer.)

On account of present conditions we have greatly reduced the prices, especially on late introductions. Our famous green plants are now only one-third the price of roots on most of the latest varieties. We hope to receive at least a portion of your 1939 orders, which we promise to fill with husky full-of-life roots, and Michigan's finest plants. A trial order will surely prove what we claim. In Michigan it's ZANT'S for quality, service and reliability.

Sincerely yours,

JOHN J. ZANT,
Landscape Architect and Dahlia Grower.

Our Green Plants are produced from our finest clumps selected in the field for propagating. We use base cuttings only and root them by electric heat. We grow them cool, which assures stocky plants; they are hardened off before shipping and the many letters of appreciation we have received prove that with the proper care they will produce as good clumps and usually far better blooms than roots and yet the price is only one-third to one-half the price of roots. Our own planting for several years has been at least 75 per cent plants.

BUT REMEMBER THIS

There's a big difference in plants, so place your order with a grower who you know has the knowledge and proper stock and equipment to produce the highest grade plants.

FIRST PRIZE

Hello Michigan:

Southbridge, Mass.

Well, John, this is the time we report. I have had a great display. You will find a few photos to enter into your contest. Murphy's Masterpiece was a beauty, two over 13 inches which you will see me holding in the photo. I asked a visitor, he is head gardener of a large estate to bring his employer down to see the blooms, but he said, "Do you want me to lose my job?" So I took that as a compliment to your stock. The following varieties all had blooms over 12 inches: America's Sweetheart, Miss Glory, Pride of America, Daddy Kemp, White Wonder, Hunt's Velvet Wonder, and Clara Carder. I had a lot of visitors who wanted to know where I bought my stock so please send me some extra catalogs next spring.

MR. DAVID YATES.

A FRIENDLY TIP

Do not pass up the varieties in this standard group on account of the low prices. A number of them, if given a new name and sent to a trial ground, would prove just as popular as many of the late Honor Roll varieties. They have stood the test.

An actual photograph of a clump measuring 16 inches across, grown from a green plant. This proves what we claim for Zant's plants.

LOWEST PRICES

Shopping around for the lowest prices is a habit with some people. We admit we also had it years ago, but we found it an expensive one in the end. The initial price of a variety is certainly only a part of the price. It costs just as much to plant, cultivate, spray, dig, and store a poor quality tuber or plant as a good one, and how different is the result.

We have the Best and Largest Crop of Roots in years for our Customers, and on account of present day conditions we have reduced our prices on Roots and Plants so that you do not have to buy inferior stock.

MINIATURE DAHLIAS

Miniatures are of the same form as the large dahlias, but miniature in size. We enjoy the growing of miniatures. They are wonderful as cut flowers, and beautiful for home arrangements. They require less garden space. We recommend them to you, and urge you try a few of them.

These small flowered dahlias have become very popular because of their general usefulness. They lend themselves nicely to effects in the landscaped gardens. As a flower for arrangements, they are ideal, keeping a long time.

LETTERS OF APPRECIATION

Southbridge, Mass.
May 19

I want to thank you for your kind treatment for the extras. All the stock you sent arrived in fine condition, just as I expected it would do; and allow me to congratulate you on your fine packing system. I have been receiving plants and roots for over 30 years, both in this country and the old country, but yours is the tops. The weather here is very cold and rainy, but the plants are standing up fine, all credit due to your fine healthy stock; mine is all Zant's, don't wish for any other.

MR. D. Y.

June 10

The order of plants and tubers shipped from Grand Rapids yesterday morning reached me last night at 6:30 p.m., in fine shape and I am more than grateful to you for the extra tubers. I must say I think you are a good mind reader as I wanted California Idol and it made me very happy to find it among the tubers I got.

MRS. R. S.

May 29

The dahlia plants arrived in fine condition. Am looking forward to blooming time, as I hope to have some nice blooms. I thank you for the extra one you sent with my order.

Q. E. L.

Little Falls, N. Y.
October 13

The flowers were so beautiful that we had the best garden in Ryle Park. Everybody stopped to look, also all autos stopped at the corner to take a peek. Some of the flowers stood eight feet high. Nine big flowers of the Murphy's Masterpiece were the size of a dinner plate.

MRS. A. De V.

Mechanicsville, Iowa.

Just a few lines on how I fared with your Dahlias this year. Our garden was the talk of our town as you will see by the local newspaper clipping which I enclose.

Murphy's Masterpiece won the crown with two 12-inch and four 11-inch flowers out at one time. It was wonderful. Mrs. Cornelia B. Pinchot is simply superb. America's Sweetheart a regular giant, it had four open at once so close together it looked like one flower two feet across. My brother in Europe also had wonderful success with the roots you sent him, blooms up to 14 inches across he wrote. Please send your new catalog as early as possible and thank you.

REV. H. F.

Garden Notes of 1938

One of our pleasures during the winter months is to go over our garden notes. We again see the garden as it was in bloom and compare the much-talked-of new variety with the older variety it was to replace. Many times they do — but just as often the much advertised, new, sensational stand-out proves to be very ordinary when sent out to be grown in all types of soil, and climates, etc. We try to see the new ones growing in the garden or Trial Grounds before we catalog them, as we

much prefer garden performance to Show Room because that near 100% bloom might have been the only good bloom of that variety. It might have been forced to produce a few extraordinary sized blooms by high power fertilizers. We do not want any of that type of stock. Of the 1938 Introductions our favorites were Sleepy Hollow and Pink Elegance in the Pink. In white it was a toss up between Michigan White and Mrs. Wm. S. Knudsen; Miss Oakland is a wonderful white but it does burn on the back of the petals. Freda George and Darcy Sainsbury, both Australian varieties and both creamy white are outstanding. Sunray's and Carl G. Dahl, both apricot shades, were talked about as super dahlias wherever two growers or fans got together. Mad River Chief, a 1937 Variety, a Giant Velvety Carmine with 3 ft. stems stood out in our garden. Visitors could not miss it. It's just one of those, "I must have that kind." Mr. Slocum's Burch Foraker, the highest scoring Dahlia at East Lansing Trial Gardens, a bright Fire Red, was what I call a Real Dahlia. Like most men I like red and, brother, this one is sure red. I expected Mr. Slocum to price it much higher than \$10.00 per root and it's worth more. We've paid \$15.00 and \$20.00 for a number of Honor Roll varieties in the last four or five years that can't touch this sensational Red for Garden or Exhibition; and his Miss Ionia is certainly a dream as a cut flower. No doubt about it, the smaller dahlias are coming strong. Many visitors who do not have room for the large varieties are buying miniatures and Poms, and we have put in a lot more ourselves. You can't beat them for table decorations and they stand up and last like Zinnias, so why bother with Zinnias. We do not believe in using fertilizer when planting unless it's bone meal which can do no harm. We wait until the buds show and then give them three applications of a balanced or a good potato fertilizer, a handful to each bush ten days apart. Spread it in about an 18-inch circle to make the roots go out after it, then you won't have curled up roots when digging clump. With each order we send complete instructions which when followed will assure you a Dahlia Garden to be proud of.
